CGS – CIG Special Workshop
Connecting Your DNA Matches
Friday, 13 April

The Colorado Genealogical Society and the CGS-Computer Interest Group are pleased to announce that Diahan Southard, Your DNA Guide, will present a special workshop on Friday, 2 - 4:30 pm, 13 April 2018, at Denver Public Library.

Diahan will present **Connecting Your DNA Matches** -- this hands-on workshop will help you analyze your DNA results. While it is possible for you to analyze your DNA matches one at a time to determine how you are related, there is much that can be accomplished by first identifying the connections between those on your match list, *organizing* those matches, and then working together to determine how you are related to each other. Learn the tips and tricks to this powerful method of match analysis.

After her lecture, attendees will complete a case study using a 10 page workbook. No personal test results or logins are needed. No need to bring a laptop.

Diahan will work with attendees to complete the case study. Registration will be limited to 40 attendees and will begin on 18 November.
