©2016 Colorado Genealogical Society

This DVD contains pdf images of Volumes 1-75 of *The Colorado Genealogist*, the publication of the Colorado Genealogical Society. From the start in October 1939 to August 1943 there were 10 numbered issues each year. Sometimes issues were combined. In the fall of 1943 it was decided that this was too many to do per year, a break was taken, and beginning in January 1944 the publication became a quarterly issue. These early issues were done with purple ditto masters and only a limited number were printed. They were scanned in black-and-white format to enhance the readability of the text. Sometimes other cosmetic corrections were needed to clean up a page. Every effort was made to retain the original text. These purple ditto editions are not searchable. The OCR for them was highly inaccurate. Volumes 31-75 are fully searchable.

You will also find the surname indexes for volumes 1-20, 21-40, 41-50, 51-60, 61-75 in searchable pdf format as a courtesy. You can use the surname indexes to look up a specific name which will tell you which volume and page you will look at to find that name. See each individual index for instructions on search methods and recommendations.
